But with more than 64 games already on the service at launch and many more to come — Apple is promising more than 100 games this fall — figuring out what to play first can be overwhelming. That's why we've chosen our favorites so far so you can know which titles are worth jumping into. Whether you're in the mood for quick-fix arcade action, brain-twisting puzzles or surreal indie adventures, here are the best Apple Arcade games yet. Hot Lava (Image credit: Klei Entertainment)Remember that playing the floor is lava as a child? Hot Lava is it, but brought to life as an addictive first person platformer where the floor is literally lava. You have to master running, jumping, swinging, bouncing on trampolines and wall climbing to avoid hitting the ground, and everything feels fine. With leaderboards and real-time player mode, Hot Lava is the perfect game to get to your friends - or compete to beat their best scores. Spidersaurs (Image Credit: WayForward)Spidersaurs is a Contra-like 2D shooter where you battle spiders that are also dinosaurs. Not sold yet? This floating sidescroller has a wonderful art style that channels classic cartoons, lots of unlockable weapons, and no shortage of intense Spidersaur bosses who would be scary if they weren't so cool-looking. Assemble with Care (Image Credit: ustwo games)Created by the team behind Monument Valley, Assemble with Care is a soothing storytelling puzzle game that casts you as Mary, a woman who fixes things for a living. As you adventure through the city of Bellaria and fix cassette players, cameras and all kinds of other gadgets by solving 3D puzzles, you'll unravel a story that reveals the city's inhabitants themselves are the ones who need to fix. With a serene, 80s-inspired soundtrack and a unique approach to storytelling, Assemble with Care is proof that puzzle games can move. (Image credit: Devolver Digital) Up for a challenge? Bleak Sword condenses Dark Souls-style combat into a bite-sized mobile experience, as you'll slash, parry and roll your way around enemies throughout the 9 chapters of action. The game blends minimalist and modern art styles to striking effect, with stick-figure pixel characters battling in gloomy 3D dioramas. Sayonara Wild Hearts (Image Credit: Apple)Sayonara Wild Hearts is a game that needs to be seen and heard as much as it needs to be played. Dubbed a pop album video game, Wild Hearts mixes Temple Run-style runs with basic rhythm challenges, all set to an irresistible electronic soundtrack and wrapped in neon fantasy visuals. It's not the hardest game at Arcade, but it's a perfect way to escape into some great sights and sounds in a few minutes – or hours. Punch Planet (Image credit: Sector-K Games)Most fighting games on iOS are simple swipe-based affairs, but Punch Planet is the real deal. This futuristic brawler packs a deep combat system that combines Street Fighter-style controls with unique mechanics to counter and confuse your opponent. Come for the cool sci-fi noir art style, stay for competitive depths, and play with a controller if you can. Agent Intercept (Image Credit: PikPok Games)If you're looking for pure, arcade-like adrenaline, Agent Intercept will scratch it itch. Cast as a super spy, you will drive around highways in a souped up car that can knock enemies off the road, shoot missiles and even turn into a boat. With rich, sun-drenched graphics and no shortage of challenges to deal with, Agent Intercept is one of the best pick-up and-play experiences at Arcade to date. What golf? (Photo credit: Triband) What Golf starts like any other iOS golf game, like you slap a ball into a hole. Soon after, you throw your golfer around the course, and not long after that, you're carefully flicking the golf club itself from one end of a junk-ridden field to another. This is the weirdest golf game I've ever played, and it's awesome. What golf? Is more of a physics-based puzzler than it is a sports title, and one of Arcade's standout launch games. Card of Darkness (Image Credit: Tom's Guide)Created by renowned indie developer Zach Gage, Card of Darkness is a challenging dungeon crawler hidden inside an accessible card game. You will pick up cards that will let you use weapons, get money, recover health and destroy obstacles. Doing it in the wrong order will quickly lead to death. It is as difficult as it is infinitely addictive, and is made all the more irresistible by its amazing hand-drawn art style. Neo Cab (Image credit: Chance Agency)Neo Cab is a story adventure game in which you play as one of the last remaining rideshare drivers in a world invaded by automation. Each ride you take on turns into an interactive conversation that challenges you to make your customers happy and keep up your star rating while managing your own emotions as the main character Lina's story continues to unravel. With its unique premise, branching stories and striking neon-soaked visual style, Neo Cab is one of the coolest indie games available on any platform right now. Towaga: Among Shadows (Image credit: Sunnyside Games)Another great pick for people in need of a quick fix of action, Towaga: Among Shadows is a satisfying 2D shoot-em-up that has you defending against waves of enemies using bursts of light and a host of powerful spells. The game's 70-plus levels and variety of modes will test your jerk reflexes for a long time, and its Animation looks like it was ripped out of your favorite Toonami cartoons. Spek Spek Credit: Apple)Spek is a minimalist, M.C. Escher-egsue puzzle game that has you guiding the dots to their destination by finding the right perspective on a range of items. The game's relaxing, captivating soundtrack evolves as you evolve, while puzzles become more advanced and colorful. If you want a good brain teaser to relax on the couch with, Spek is one of the best at Arcade so far. Skate City (Image credit: Apple)There aren't good enough skateboarding games out there, but Skate City is definitely one of them. This skateboarding simulator lets you pull off tricks with simple touch and gamepad controls, but there's plenty of room for advanced players to put together smart combos. With a relaxed lo-fi soundtrack, plenty of challenges to tackle and a relaxed endless skate mode, Skate City will satisfy all levels of players who want to get their kickflip on. Shinsekai: Into the Depths One of the meatiest console-esque games on arcade, Capcom's Shinsekai: Into the Depths is a rich 2D adventure where you'll explore a mysterious underwater world filled with secrets to discover and bosses to conquer. Shinsekai's detailed, distinctive graphics and enrapturing sound design – which includes sound effects that were recorded underwater – make for one of the most unique, AAA-style games at Arcade to date. Dear Readers (Image credit: YouTube/Phoenix King Gaming)Mobile word puzzle game is a dime a dozen, but Dear Reader finds away to stand out from the pack. This literary puzzle tasks you with unscrambling phrases from famous books, including Pride & Prejudice and The Legend of Sleepy Hollow. Bookworms will especially love this one, although anyone who has a good word puzzle should have a blast too. For a long time, arcade games were among the most popular in the world. They usually have short playing times, consistent challenge, and simple play. They are marked by their increased challenge during the game. Some popular examples from the early days of mobile are Angry Birds, Fruit Ninja and Doodle Jump. The result is a very addictive, enjoyable experience that gives players the desire to continue. Asphalt 9: LegendsPrice: Free to playFall 9: Legends is the latest game in one of the most popular arcade racer franchises on mobile. The controls are simple enough and the graphics are pretty good. The free to play elements can be a bit aggressive and the controls were arguably better in previous games. However, this is easily one of the best arcade racers on mobile. Most of the others are freemium games. Thankfully, the game is also legitimately good and fun. Fans of the series still play this game, even though it comes out years ago. Grand Mountain AdventurePrice: Free/\$4.99Grand Mountain Adventure is one of the newer arcade games on the list. This mobile remaster has everything the arcade version had, including real players, two versus two basketball with relaxed rules, local multiplayer, online multiplayer, a campaign mode and satisfying controls. The game's larger-than-life presentation gives it a fun atmosphere and the insane accuracy bump when you go on fire is the key to huge victories. It runs for a single \$4.99 purchase and it's one of the big ones. Noodlecake Studios gamePrice: Free / Free to play / VariesNoodlecake Studios is a developer on Google Play. Otherwise, this is a very competently made pinball machine. We also recommend Zen Studios pinball on Google Play if this one doesn't do it for you. PPKPPrice: Free to PlayPPKP is an arcade action game from 2019. It's reminiscent of arcade titles from the old days, but with a little extra depth. You get a few places to skate, but you'll have to unlock the majority of parks and courses using in-app purchases along with lots of other things. The game is really fun, although the in-app buying strategy is quite aggressive. Yodo1 GamesPrice: Free to playYodo1 Games have some of the best arcade games for everyone.
